Mocassin Lockstitch Sewing Machine

特点&优势

1. 本机是专为马克线帮面缝制所设计 多年经验 技术成熟
2. 本机拥有8种不同的鞋面缝合方式 各类花样均可实现
3. 本工业制鞋缝纫机质量可靠 品质保证
4. 所有零件均采用数控机床加工，零件精准度
5. 采用电子调速马达，速度可灵活掌控，停针位置由电脑控制。

Features & Advantages

1. This machine is designed for the sewing of the mocassin shoes for many years.
2. This machine has 8 different upper -suture methods, all kinds of patterns can be realized
3. This industrial shoe sewing machine quality and quality are guaranteed
4. All parts are processed by the CNC machine tools and ensure the accuracy of the parts
5. Adopt electronic speed -regulating motors.The speed can be flexibly controlled.The position is controlled by the computer.

TECHNICAL PARAMETERS:

Model No	SR-0088-747
Voltage	750W 单相 Single Phase 220V or 三相 Three Phase 380/50-60HZ
Needle	DY-100(200-230#)
Stitch Length	4-8mm
Material Thickness	≤4mm
Speed	Stepless speed adjustment
Package Dimension	103*88*160 (L*W*H cm)
Weight	210KG / 290KG
