

Model No: SR-100

Drying And Feeding Unit (two In One)

Used for high hygroscopic engineering plastic and rubber such as PA, PC, PBT, PET. etc., H4 and H5 types can be selected according to customer demand.

Microcomputer control system, control machine running automatically (with timing switch and full-functional alarming system)

Features:

- Hot-air recycling system, save power consumption up to 40% and environment-friendly without hot-air and dust exhausting
- Compact in size for easy moving and the machine can be replaced easily
- The sealed piping sends material to the target machine, to avoid secondary pollution, the built-in shut-off valve guarantees that no material remains in the piping

Technical Parameters

Model	Unit	SR-50	SR-100	SR-200	SR-400
Provide with					
Heater power of dryer	kw	3.9	6	12	18
Feeding blower power	kw	1.5	2.2	2.2	2.2
Drying blower power	kw	0.2	0.25	0.4	0.4
External size	mm	1100x750x1500	1200x900x1700	1580x930x2000	1700x1100x2100
Weight	kg	110	210	300	400
