

SR-115
Hydraulic Leather Belt Roller Embossing Machine

Pneumatic Leather Belt Embossing Machine

Features:

Type of leather for long continuous mark, with the mold operation, a different mold can pressed out of different patterns, to follow the different materials needed to adjust the temperature and speed, to mark the color and depth.

Leather belt roller embossing machine

1. SR-115A Hydraulic belt embossing machine
2. Made in China
3. This Machine mostly used in embossing for long belt.
4. Heavy-duty embossing
5. Emboss pattern, line, polish ect.
6. Temperature and speed can be adjustable.
7. More pressure more better embossing effect.

Technical Parameters:

Model	SR-112	SR 115A	SR 122
Voltage	220/380V	380V	120V
Power	0.75kw	2HP	1HP
Dimension	130X50X60mm	970X660X1220mm	760X430X1150mm
WORKING SPACE	140MM	140mm	120mm
SPEED	0-17.5mm/min	0.17.5mm/min
