

LEATHER GOODS MACHINERY

SR-161S/162D 激光切刀機 CNC Laser Cutting Machine

Technical Parameters:

Model NO.	SR-161S SR-162D
Working Area	600*900/900*1200/ 900*1300/900*1400 /1600*100mm(mm)(L*W)
Laser Type	Sealed CO2 Laser Tube
Laser Power	80W*2 dual heads(100W*2 optional)
Cooling Mode	Water Cooling and Protection System
Engraving Speed	60000mm/min
Command Language	± 0.05mm
Minimum Shaping Character	English 1*1mm
Graphic Format Supported	PLT, DXF, BMP, AI, DST
Controlling Software	LaserCut5.3
Compatible Software	CorelDraw, AutoCAD, Photoshop
Driving System	3 Phases Stepper Motor
Working Voltage	AC 220V, 50HZ, or 110V, 60HZ
Operation Temperature	0-45° C
Operation Humidity	5-95%

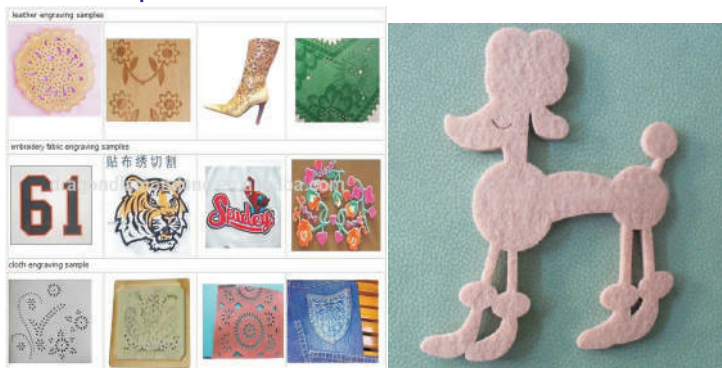

Applicable materials:

non-metal materials such as leather, fabric, cloth, textile, paper, plastic, rubber, dual color board, acrylic, wood, MDF, plywood, bamboo, organic glass, crystal, etc.

Applicable industries:

Garments sampling, large width tailoring, leather, shoemaking, decoration, furniture, advertisement, packing and printing, molding and art craft

Machine Samples:

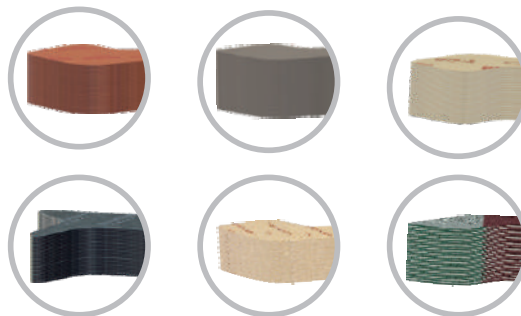

SR-139 专业鞋材数控切割机 Professional Shoes Material CNC Cutting Machine

特性 FEATURE

該機器採用專利滾壓切割功能，并能適合多層切割。經該機器切割後的鞋底大小精確無誤，高效節能。

The machine uses a patented rolling cutting function, and can be suitable for multi-cutting. After cutting through the soles of the size of the machine the accuracy, efficiency and energy saving.

技術參數 PARAMETER

型號	Model	SR-139
尺寸	Dimension	L240xW180xH138cm
淨重	NW	1200kg
馬力	Horsepower	3.5HP
產能	Production	600-2400雙/小時
