

SR-7687020 Double edge coloring Machine

Features/特点

Suitable for men and women on both sides of the belt, gourd shape dyeing range width is 5-80-mm, 1-8mm thickness, dyeing oil length is 1370 mm can be oil. The thickness of the oil is adjustable, clean oil tankers and dye box, simple and convenient. The fuselage height can be adjusted, suitable for all kinds of belt, the length of the belt. The belt on both sides of the color and function at the same time, equipped with electronic eye function and automatic control in the second period of speed, convenience of artificial dyeing oil speed automatically jump to the second paragraph, in order to save time.

Technical Parameters:

Model	SR-7687020
Voltage	220V
Power	1/8HP
Machine Size:	550*550*1400mm
NW/GW:	55KG
GW	65KG
