

SR-7687026 (Vertical Buffing Machine):

Features/特点

It is suitable for grinding both sides of men's and women's belt, making the belts smoother and brighter than those after trimming, and better when dyeing the edges again. The secondary machine has the function of vacuum cleaner.

Technical Parameters:

Model	SR-7687026
Voltage	220V
Power	700W
Machine Size:	1100*680*1250mm
NW/GW:	149kg
GW	165kg
