

SR-7687032

Automatic Assembly Line Drying Machine**Features:**

SR Automatic Assembly Line Drying Machine

Main Application: It use to drying after material painting edge.

Suitable Range: It suitable for leather parts, hand ware parts, big size material etc.

Working Area: The oven length is 2400mm,width is 900mm.

Product Feature

1. It have automatic control system, the control between manual and automatic is simple to change, the operation is convenient
2. The assembly line speed can be adjust according to the drying effect
3. Use infrared penetration drying, intelligent temperature adjustment, has excellent drying effect

Technical Parameters:

Model	SR-7687032
Voltage	380V
Power	6.5KW
Detentions	3900mm*900mm*1400mm
Oven size	2400mm*900mm
