

SR-7687041

Pneumatic Folding Machine

SR-7687042

Hand Operation Folding Machine

The SYNREE **SR-7687041** are linear electro pneumatic folding machines able to make folds with hot or cold system on various leather goods, in leather or similar materials: wallets, wallets for checks, key rings, handbags, etc. They are characterized by a folding width ranging from 0.3 to 10 mm.

Technical features:

- Material thickness varies from 0.2 to 2 mm;
- Programmable temperature from 0 to 100 °C;
- Pressure time from 0.3 to 10 seconds;
- Keypad with LCD with microprocessor for programming and check control function;
- Pedal electrically connected for foldings;
- Quill beads with dent.

The following models are available:

SR-7687041: Linear Electro pneumatic Folding Machine with cold system

SR-7687042: Manual Folding Machine with cold systems

SR-7687042

1. This Hand folding machine is mainly used for strip folding for shoe, bags, purses, etc
2. Good folding effect, high efficiency;
3. Folding pressure can be adjusted;
4. An ideal equipment for shoe and bags factories.

Technical Parameters:

Model	SR-7687041
Overall Dimensions	660mm*525mm*965mm
Folding Length	0-600mm
Machine Size:	600mm*280mm
W.T	43kg
