

皮具手袋篇

SR-C420 帶刀片皮機 Band Knife Splitting Machine

特點 CHARACTERS

- ◆ 數字顯示片削厚度。
- ◆ 帶刀趨勢無需調整。
- ◆ 簡單:單一手柄調整磨刀裝置及啓動控制裝置。
- ◆ 自動調整刀具壓力板間隙,使片削精度更高。
- ◆ 精確的軌道使飛輪移動可靠,更換帶刀更加容易、快速、方便。
- ◆ 詳細的使用說明和維修工具。
- ◆ 片削不同的皮革,片削的壓力自由調節,機械部件永久潤滑。
- ◆ 供料無極變速和自動倒退功能。
- ◆ 磨刀單元可使用金鋼砂輪或鑽石砂輪。
- ◆ 靈活;快速設定刀刃寬度。
- ◆ 獨立皮屑吸塵與磨刀粉塵吸塵裝置。
- ◆ 光學目鏡檢查刀刃對稱。
- ◆ 安全裝置符合歐共體CE標準。
- ◆ 適當的工作高度旨在減少操作勞累。
- ◆ 機器故障中英顯示。
- ◆ Indicate the splitting thickness by number.
- ◆ Stepless speed change and auto-back function available for material feeding.
- ◆ Band-knife trend requires no adjustment.
- ◆ The knife grinding unit can use emery wheel or diamond wheel.
- ◆ Simpleness: Adjusting knife grinding with the single handle device and automatic control equipment when start.
- ◆ Flexibility: Rapid setting of knife edge width.
- ◆ Adjust the clearance of pressure pad and cutting tool automatically to make the splitting precision much higher.
- ◆ Freestanding set of dust absorbing and knife grinding dust absorbing.
- ◆ The accurate rail makes the movement of flying wheel more reliable, and the replacement of band knife more easy, quick and convenient.
- ◆ The symmetry of knife edge is inspected with optical eyepiece.
- ◆ Detailed use direction and maintenance tools.
- ◆ The safety device complies with European Union CE standard.
- ◆ Split different leather, pressure of splitting can be adjusted automatically.
- ◆ Appropriate working height can reduce the tire of operation.
- ◆ The mechanical parts always lubricate.
- ◆ Chinese-English bilingual display for machine failure.

用途 USAGE

該機適用於對皮革制品行業中寬420mm,厚為8mm以下的硬、軟皮料進行片薄、片勻至所要求厚度的設備。可任意調節片削厚度提高產品質量,增強市場競爭力。
The machine adapts to splitting the hard or soft leather symmetrically, which the width less than 420mm and the thickness is less than 8mm, according to the required thickness in the industry of leather products. it can adjust the splitting thickness freely, improve the quality of products and strengthen the competitive power of markets.

技術參數 PARAMETER

型式	Model	SR-C420	SR-C520
工作寬度	From the shape	420mm	520mm
最大片削厚度	Shape of product	8mm	8mm
最小片削厚度	Attain to the special	0.6/0.2mm	0.6/0.2mm
帶刀尺寸	Special effect	0.7/50/3500	0.8/50/3700
供料速度	Where is comprised	4電動一機動	4電動一機動
上部供料	Simple geometry	標配	標配
工作壓力	Attain to the special	機械	機械
安裝功率	Where is comprised	2.7KW	3.1KW
淨重	Simple geometry	635Kg	870Kg
機械尺寸	The shape of product	1.6x1.3x1.1	1.7x1.3x1.1
包裝尺寸	Shape of product	1.85x1.25x1.3	1.91x1.25x1.3
