

SR-SMD-300 CRUSHER MACHINE 鞋材粉碎机

技術參數 PARAMETERS

型號	MODEL	SR-SMD-300
调节压力	PRESSURE	1-3.5MPA
行程	GRINDING ϕ	570x400MM
馬力	POWER	22KW
電壓	VOLTAGE	380V/50HZ
機械尺寸	MACHINE SIZE(L*W*H)	1500*1160*1735MM
毛重/淨重	N.W./G.W.	1700KGS/1800KGS

特点 FEATURES

1. 可用于橡胶、TPU、TPE、TPR等边角料粉碎；
 2. 高硬度刀口，快速切削，减少摩擦，耐磨性高；
 3. 合理的切削角度，使物料可以一次被切断，避免反复摩擦导致温度升高；
 4. 可按需求设定，定量添加隔断剂，避免材料粘连。
1. Can be used to crush rubber, TPU, TPE, TPR and other scraps;
 2. High hardness knife edge, fast cutting, reduce friction, high wear resistance;
 3. Reasonable cutting angle, so that the material can be cut off at one time to avoid the temperature increase caused by repeated friction;
 4. It can be set according to the requirements, and the blocking agent can be added quantitatively to avoid material sticking.
