## Double Thread Sewing Machine for Upper Moccasin

SINGLE NEEDLE    DOUBLE NEEDLE

## 特点

1. 本机适用于各种鞋类的帮面/侧面花样缝制。
  2. 本机有十多种花样可供选择缝制。
  3. 通过更换凸轮和换档装置，可以缝制各种图案。
  4. 机器的操作简单易懂，使用方便。
  5. 本机采用双面线和底线锁缝。
  6. 压脚自动升降，操作方便，性能稳定。
  7. 本机采用电子马达驱动，无级调速，停针位置由电脑控制。。
  8. 花样有叉型、方形、E型、平行线型等多种单、双针缝不同的图案。
1. This machine is suitable for sewing/side patterns of various shoe categories.
  2. There are more than a dozen tricks for this machine to choose from.
  3. By replacing the cam and shifting devices, various patterns can be sewn.
  4. The operation of the machine is easy to understand and easy to use.
  5. This machine uses double -sided and bottom line locks.
  6. Auto -rise and lower pressing foot, convenient operation, stable performance.
  7. The machine is driven by an electronic motor with a stepless speed adjustment.
  8. There are different patterns such as fork -type, square, E, and parallel line type.

## TECHNICAL PARAMETERS:

|                   |                                    |
|-------------------|------------------------------------|
| Model No          | SR-0088-781/05C                    |
| Voltage           | 750W/单相 Single Phase 220V /50-60HZ |
| Needle            | DD*1                               |
| Stitch Length     | 0-8mm                              |
| Sewing Speed      | 400 r.p.m.                         |
| Speed             | Stepless speed adjustment          |
| Package Dimension | 131*78*144 (L*W*H cm)              |
| Weight            | 180KG / 240KG                      |
